

Good Afternoon,

I have received a copy of your circular together with a copy of the proposed plans attached, second one for Ffordd Pandarus, Mostyn.

At the outset, please be aware that in its present form for proposed buildings on Ffordd Hiraethog will be objected to outright. We have consulted with our local Councillor, Patrick Heeson explaining bungalows would be acceptable but NOT DOUBLE STOREY DWELLINGS. One and two bedroom apartments will be utilised for single mothers, drug users and other persons that would be undesirable to the residents of Ffordd Hiraethog. These residences are not acceptable to children's welfare as there is nowhere for them to play and I certainly will not have them jumping up and down near my boundary wall and causing my husband and myself any form of stress.

Also, if for any reason our access to number [REDACTED] is blocked in any way we fully intend to park our vehicles outside our house (like the rest of residents in Maes Pennant) by the front door on the road next to our garden thus blocking access to the proposed site.

A consultation is insufficient. A full public meeting should be called to enable residents to have their say as to whether the plans are acceptable to them or not. Your Company nor the Council should think they can get away with underhanded methods in relation to this matter.

My husband and myself will be at the consultation meeting to voice our opinions along with, I am sure, more residents of the area to fully voice their opinions.

[REDACTED]
